

Soft Tissue Grafting around Implants & Natural Teeth Utilizing Live Patients

Earn 20 CEs!

April 19-22, 2018

Where: **BAM Center**
in Puebla, Mexico

All inclusive!
Except airfare

Keynote speakers:

Dr. Kevin Frawley & Dr. Miles Madison

Only \$7,500 per attendee!

The Mexico trip is all inclusive except airfare. Your cost includes all food and beverages, shared accommodation lodging, and the supplies needed for the live patient surgeries.

Register today! Limited to 8 participants.

About the course: Participants will begin their training with lecture delivered by Dr. Frawley. Each participant will perform four soft tissue grafts as well as assist with four additional procedures, all with live patients.

Course outline:

- History of all types of soft tissue grafts
- Review of literature
- Implant exposure to preserve keratinized tissue
- Review of techniques
 - Free gingival graft around implants lacking keratinized tissue
 - Root Coverage - Subepithelial connective tissue graft/dermis graft
 - Root coverage - utilizing dermis in Vista tunneling
 - Perform four live surgeries and assist on four other surgeries

Keynote Speakers: Dr. Kevin Frawley & Dr. Miles Madison

Dr. Kevin Frawley is committed to the development of dentistry on all levels and is involved with both local and national dental associations. He is a member of the American Dental Association and the California Dental Association, where he currently serves as the trustee. For the past 30 years, he has been involved in implants and regenerative dentistry. He is part owner of Surgical Esthetics, a company focused on regenerative therapies, which was founded in 2011.

Dr. Miles Madison graduated from UCLA School of Dentistry with top honors and was the recipient of numerous academic awards. Dr. Madison went on to specialize in periodontology at the University of California at San Francisco where he became one of the youngest graduating periodontists in United States. Dr. Madison currently devotes his practice to periodontology and dental implants. He is recognized by his colleagues as an authority on periodontal plastic surgery and implants. He is the innovator of numerous advanced techniques, and lectures nationally to other dentists and periodontists.
