Why You Should Start 3D Printing with SprintRay

Dentistry has evolved. It's faster, easier, and smarter than ever—and SprintRay is helping drive that innovation. Our technology has revolutionized the dental workflow with a true end-to-end production solution for dental professionals. SprintRay's frictionless workflow includes materials, design, and chairside manufacturing. This unique combination makes it the leading 3D printing ecosystem on the market.

Spend Less Time

Delight your patients with faster dentistry, cutting wait times with point-of-care fabrication.

Exercise Full Control

Enjoy the flexibility synonymous with SprintRay 3D printing for complete control of production and delivery.

Get Up & Running Fast

Receive expert training for a seamless transition into our ecosystem, designed with ease of use in mind.

Gain incredible ROI

Accelerate profitability by reducing cost and delivering uncompromised quality, all while increasing margins.

Deliver Premium Quality

Achieve a perfect fit with more comfort and durability than traditionally created appliances.

Improve Patient Satisfaction

Reduce chairtime and follow-ups with faster, same-day care for a seamless patient experience.

WE SIMPLIFY THE PROCESS SO YOU CAN FOCUS ON YOUR PATIENTS AND GROW YOUR BUSINESS

SprintRay Cloud Design

You scan. We plan.

The best design software is one you don't have to learn how to use. SprintRay Design allows you to tackle production in your office with a blend of artificial intelligence and experienced on-demand designers, all managed from a single cloud portal.

SprintRay Design integrates RayWare for print setup, where appliances can be batched or sent to any cloud-connected SprintRay 3D printer. Choose between AI-designed night guards in as little as five minutes or a wide range of treatments handled by our expert designers.

Design, print, and place in as little as 45 minutes

Signature Design

Choose treatment, expert STL designs, upload data, and 3D print

GAIN IN-OFFICE PRODUCTION FLEXIBILITY AND EFFICIENCIES
